

Two of the largest CPI sectors are the Refining & Petrochemical markets. Margins and project activity in both of these sectors are starting to see positive growth. With capital spending expected to increase in 2021, *Chemical Engineering* is offering a very targeted HPI issue with extensive coverage of this highly profitable market.

In May, *Chemical Engineering* will publish a special Gulf Coast Refining & Petrochemicals advertising section. Advertisers running a ½ page or larger ad will receive a bonus ½ page advertorial write-up. This is the most economical way to get your message into the hands of the CPIs critical decision-makers.

May's issue will include an Equipment Newsfront on Petroleum Refining. There will also be content relevant to Safety Through Digitalization and Valves (Featured Reports).

What to Send

- » Please send all material to George Severine, gseverine@accessintel.com, with a copy to your sales representative.
- » Send 350–400 words for a 1/2 -page editorial.
- » Write in the third person – don't use "we", "our", or "you".
- » We ignore ® and ™ symbols, as elsewhere in CE editorial.
- » Include one print-quality image, or two if you will accept less text.
- » Vector art (AI, EPS, PDF) is preferred for diagrams. For photos, JPG is fine.
- » We will edit to house style and send you a proof to check.

How to write your editorial for a *Chemical Engineering Magazine* Special Advertising Section

We are grateful for your advertising support and pleased to offer you the opportunity of free editorial space.

Within reason you are welcome to use your advertorial space in any way you wish. However, we have a few “house rules” to provide a consistent look across the section and reinforce the impression that this is independent editorial written by a journalist, rather than advertising. So please:

- » Send 350–400 words for a 1/2 page editorial, 250–300 words for 1/3 page, or 150–200 words for a 1/4 editorial.
- » Write in the third person (for instance “the company” or “YourCorp., Inc.” instead of “we”), and don’t address the reader directly.
- » No ® or ™ symbols, please. They never appear in standard magazine editorial.
- » If possible, include a headline that will comfortably fit the available space. For a standard half-page of editorial this is likely to require 35–48 characters, but check a sample copy. Smaller editorials and vertical layouts will need fewer characters. The head should not include your company or product name.
- » Similarly, it helps to include a deck (subhead) of roughly the right length. For a standard half page this is generally 130–160 characters; again, check a sample copy. The deck should include your company name; product names are optional.
- » One illustration is normally enough, though it’s sometimes possible to use two small ones. A single large illustration can look striking, but there is a trade-off with the length of the text (which is one reason why it’s hard to be precise about word counts).
- » Please try to include a caption for your illustration, especially if it shows a particular product or plant. Make sure you have copyright clearance for your illustration.
- » Illustrations can work well in either landscape or portrait orientation; landscape gives more flexibility with layout. Cutouts (vignettes) against a plain background or with clipping paths are welcome.
- » We can handle most graphics file formats, but for photographs a good-quality JPG suitable for printing at 300 dpi is fine. Please send illustrations as separate files, not embedded in Word documents.
- » For diagrams and charts, vector artwork (Adobe Illustrator or vector PDF) is much preferred. Remember that graphics with narrow lines and small text do not work well at small column widths.
